

Environmental Enhancements, Inc.

Green Statement

EE, Inc. understands the importance of conserving natural resources, protecting habitats, and reducing our footprint on the earth. We take on the responsibility to design landscapes that minimize environmental impacts and ensure a healthy, viable natural balance.

We believe it takes a collective effort of government, companies, organizations, and individuals to address the growing challenges presented by our delicate environment.

EE, Inc.'s goals in helping meet these challenges are to provide designs and services that are safe and environmentally sound, conduct our operations in an environmentally responsible manner, create healthier environments, and prevent unnecessary waste.

To accomplish this, we will:

- Proactively reduce occupational injury and illness risks, and promote employee health and well-being;
- Pursue noise pollution prevention, energy conservation, and waste reduction in our work;
- Create safe designs that minimize their environmental impact;
- Offer our customers environmentally responsible management services;
- Support suppliers and growers who conduct their operations in a socially and environmentally responsible manner.

Each employee has an individual responsibility to understand and support our environmental, health and safety policies and to actively participate in programs to ensure our goals are achieved.

We will continue to work with employees, suppliers, growers, customers, and governmental and community organizations to protect and enhance public health and the environment. We welcome opportunities to use new and innovative ways to conserve resources and protect our environment.
